Manufacturing Pigments Since 1996

Qualitron Chemicals, located at Panoli (Gujarat, India), is amongst the best quality phthalocyanine pigments manufacturers of India.

The company has been serving its treasured patrons since 1996. Company is buoyed by qualified technocrats for better customer service and application support with having well equipped manufacturing unit at Panoli. High production capacity plant has made the company very competent to meet bulk requirements of clients.

Apart from that, 360° customer satisfaction and total quality management are organization's prime objectives. To impart the quality of product & services in the market we are now TNV (ISO 9001: 2015), AB-CAB & NSIC certified. We are also D&B (Dunns & Bradstreet) listed. We believe in continuous improvement in our product to cop up with the highly competitive modern market.

Facilities:

Production & Supply Capacity: 100MT/Month
In-house Quality Testing Laboratory
Application Testing Laboratory
